[34] How Many Linear Feet of foundation needs repaired?

[35] How Many Linear Feet of foundation needs repaired?

[36] Replace house gutters? Be sure that the home length, width and height are filled in above.

[37] Replace garage gutters? Be sure that the home length, width and height are filled in above.

[38] Enter in FEET

[39] Enter in FEET

[40] Is the foundation slightly bowing and needs straightened?

[41] Is the foundation slightly bowing and needs straightened?

[42] Has the foundation collapsed or has extreme bow?

[43] Has the foundation collapsed or has extreme bow?

[44] What is the approximate lot square footage? This is found on the county website.

[45] Does the home need a general landscaping treatment? Mulch, plants, etc.

[46] What is the total square footage of wood porches/decks that need repair?

[47] Does the home have high grass/brush that needs cleared?

[48] How many windows need replaced? FRAME AND GLASS

[49] Does the porch/deck need new top boards?

[50] How many trees on the property need trimmed back from the home?

[51] Home in a historic district? How many historic windows need replaced?

[52] Does the porch/deck need new footings?

- [53] How many trees on the property need to be removed completely?
- [54] How many windows have good frames but broken glass?
- [55] Does the yard have trash/debris that needs cleaned up?
- [56] How many window screens are damaged or missing?
- [57] This is the total number of appliances/fixtures in the home POST REHAB that will require gas valve shutoffs. Stoves, Ovens, Dryers, Water Heaters, Furnaces Etc are included.
- [58] How many gas meters will the house have post rehab? EX: 1 for Single family, 2 for a gas split Duplex...
- [59] Use this field to note Mechanical Ages and conditions.
- [60] How many NEW Gas Meters do you wish to install?
- [61] How many Replacement Bath Vanity Lights do you wish to install?
- [62] How many NEW Electrical Meters do you wish to install?
- [63] How many NEW Water Meters do you wish to install?
- [64] How many NEW Furnaces do you wish to install?
- [65] How many units currently have gas split?
- [66] How many Replacement Ceiling Flush Lights do you wish to install?
- [67] How many NEW Electric Panels do you wish to install?
- [68] How many NEW Gas Water Heaters do you wish to install?
- [69] How many existing Furnaces are being replaced?
- [70] How many Replacement Wall Sconce Lights do you wish to install?
- [71] Use this field to calculate costs to install an electric stove in a completely new location with no existing hookups. Ex- When converting a bedroom into a kitchen.
- [72] How many existing Gas Water Heaters are being replaced?
- [73] How many NEW AC units do you wish to install?
- [74] How many units do you want gas separately metered in?
- [75] How many Replacement Exterior Flood Lights do you wish to install?
- [76] Use this field to calculate costs to install a laundry hookup in a completely new location with no existing plumbing. Ex- When converting a bedroom into a laundry room.
- [77] How many NEW Electric Water Heaters do you wish to install?
- [78] How many existing AC units are being replaced?
- [79] How many Replacement Ceiling Fans do you wish to install?

- [80] How many NEW AC units do you wish to rough in electrical for?
- [81] How many existing Electric Water Heaters are being replaced?
- [82] How many new Bath Exhaust fans will need roughed in?
- [83] How many Replacement Ceiling Fans do you wish to install?
- [84] Use this field to calculate costs to install a sink in a completely new location with no existing plumbing.
Ex- When converting a bedroom into a bathroom.
- [85] Use this field to calculate costs to install a sink in a completely new location with no existing plumbing.
Ex- When converting a bedroom into a bathroom.
- [86] Installing new gas meters requires a pressure test, be sure to fill in Cell B61 for this to be accurate.
- [87] How many NEW Smoke Detectors do you wish to install?
- [88] Does the entire home need re-wired? This is useful for homes where existing wiring needs brought up to code or electric is being split.
- [89] Use this field to calculate costs to install a toilet in a completely new location with no existing plumbing.
Ex- When converting a bedroom into a bathroom.
- [90] Need to bring gas valves up to code? Be sure to fill in Cell B60 for this to be accurate.
- [91] How many NEW CO's do you wish to install?
- [92] Use this field to calculate costs to install a tub or shower in a completely new location with no existing plumbing. Ex- When converting a bedroom into a bathroom.
- [93] Does the entire home need re-ducted? This is useful for homes that are converted from boiler to forced air, or if you are adding additional furnaces.
- [94] Does the entire home need re-piped? This is useful for homes where existing wiring needs brought up to code or water is being split.
- [95] Roughly how many square feet is the room? A laser tape measure or MLS specs can be used for quick numbers.
- [96] How high are the ceilings in this room?
- [97] Replacing countertops? How many linear feet?
- [98] Need new walls framed for closets or partitions? How many linear feet of wall needs framed?
- [99] Need new drywall? Approximately how many 4x8 sheets?
